Simple and safe:

PULLEY + BOLTS KIT

Pulleys should be checked every 90,000 km and replaced together with the bolts and belts. Replacement bolts were difficult to identify and source. CORTECO offer you the widest selection in original quality from Freudenberg, the world's leading professionals in vibration technology products. Purposely designed original pulleys and bolts guarantee straightforward assembly and the highest degree of safety.

New bolts are a must!

CORTECO recommend replacing the bolts with the pulley. Reason: In serial production torque-to-yield (TTY) bolts are often used which are tightened by automatic bolt tightening devices to just above their elasticity range. The bolt undergoes lasting deformation and/or stretching. Re-using such bolts poses considerable safety risks and is not recommended. As a result of the deformation, the usual ratio between torque and pre-load cannot be achieved if reused. Result: the screws can become loose or even break.

Replacement made easy!

CORTECO now offers more than 20 complete replacement kits. Pulley, matching bolts and washers in one special box! Pulley and bolts don't have contact with each other in the box, so the ribs won't be damaged by the bolts during transport. You receive all necessary parts and appropriate instructions for assembly in one package thus you have everything for precise pulley replacement.

CORTECO Service:

The CORTECO portfolio consists of original pulleys and comprises more than 190 references for more than 3000 vehicle applications. All pulleys are supplied with mounting instructions.

CORTECO pulley + bolts kit - your benefits:

- All necessary bolts and washers plus pulley in one kit
- Easy identification in TecDoc via OE number of the pulley or vehicle application
- Optimized package protects the parts from transport damage
- Time-saving through easy sourcing
- Simple assembly and increased safety
- Compliance with OE requirements

Einfach und sicher:

RIEMENSCHLEIBEN + SCHRAUBEN IM KIT

Riemenscheiben sollten nach ca. 90.000 km überprüft und zusammen mit den Schrauben und dem Spannriemen ausgetauscht werden. Als Unternehmen der Freudenberg Gruppe - dem weltweit führenden Hersteller von Schwingungstechnischen Produkten - bietet CORTECO Ihnen dazu das größte Sortiment in Erstausrüsterqualität. Denn nur exakt abgestimmte Original-Riemenscheiben und Schrauben garantieren einfachste Montage und höchste Sicherheit.

Neue Schrauben sind Pflicht!

Alte Schrauben dürfen beim Wechsel der Riemenscheibe nicht wieder verwendet werden. Der Grund: In der Montage werden in der Regel Dehnschrauben eingesetzt, die bei Einbau bis knapp oberhalb ihrer Streckgrenze angezogen sind. Hierdurch wird die Schraube dauerhaft verformt bzw. gedehnt. Ein erneutes Verwenden solcher Schrauben birgt erhebliche Sicherheitsrisiken und ist unzulässig. Durch die Verformung kann das übliche Verhältnis zwischen Anziehdrehmoment und Vorspannkraft nicht mehr hergestellt werden. Das Resultat: Die Schrauben können sich selbständig lösen oder brechen.

CORTECO macht den Wechsel leicht!

Ab sofort bietet Ihnen CORTECO einen kompletten Montagekit an. Riemenscheibe, die passenden Schrauben und Unterlegscheiben werden in einer speziell entwickelten Verpackung geliefert. Riemenscheibe und Schrauben sind dabei so gelagert, dass diese innerhalb der Verpackung keinen Kontakt zueinander haben und somit eine Beschädigung der Rippen durch die Schrauben beim Transport ausgeschlossen ist. Sie erhalten also alle notwendigen Teile sowie entsprechende Hinweise zu Montage und Montagewerkzeugen in einer einzigen Einheit und verfügen somit über alles für den fachgerechten Riemenscheibenwechsel.

CORTECO Service:

Das CORTECO-Sortiment an Original-Riemenscheiben umfasst über 190 Riemenscheiben. Über 20 davon bietet CORTECO alternativ als Riemenscheibenkit zusammen mit den passenden Schrauben an. Alle Riemenscheiben werden mit Einbauanleitungen geliefert.

Ihre Vorteile durch CORTECO Riemenscheiben + Schrauben im Kit:

- Alle notwendigen Schrauben, Unterlegscheiben plus Riemenscheibe in einem Satz
- Einfache Identifikation in TecDoc über die OE Nr. der Einzelriemenscheibe oder über die Fahrzeuganwendung
- Optimierte Verpackung schützt zuverlässig vor Transportschäden
- Zeiteinsparung durch vereinfachte Beschaffung
- Einfache Montage und mehr Sicherheit
- Entsprechen den hohen OE-Anforderungen

Simple et efficace :

KIT POULIE ET VIS DE SERRAGE

Les poulies de vilebrequin doivent être contrôlées tous les 90 000 km et remplacées en même temps que les vis, à l'occasion d'un changement de courroie de distribution. Or l'approvisionnement et l'identification des vis et rondelles pour poulies d'origine étaient jusqu'à présent une tâche difficile. Désormais, CORTECO vous offre la plus large gamme de kits de vis et rondelles en qualité d'origine. Nos poulies de vilebrequin et kits de vis de qualité d'origine garantissent un montage conforme et fiable.

Des vis neuves sont un plus !

CORTECO recommande le remplacement des vis de poulies. Lors de l'assemblage du véhicule chez le constructeur, des outils de serrage automatiques effectuent un serrage de la vis la plaçant légèrement au-dessus de sa limite d'élasticité de manière à répondre à un cahier des charges précis et à assurer une fiabilité idéale de la poulie de vilebrequin. Autrement dit, les vis se déforment définitivement. Les réutiliser vous expose à un risque de défaillance de la poulie ou de la vis voire de casse. Même en respectant les couples de serrage du constructeur, la déformation déjà subie par la vis lors du serrage d'origine change ses caractéristiques techniques.

Une réparation facilitée !

CORTECO vous propose désormais un kit complet comprenant la poulie, les vis correspondantes et les rondelles dans une seule boîte ! La poulie et les vis ne sont pas en contact afin que les stries de la poulie ne soient pas endommagées par les vis durant le transport. Vous recevez ainsi toutes les pièces nécessaires ainsi que les instructions de montage et les outils à utiliser pour un remplacement efficace de la poulie de vilebrequin.

Le service CORTECO :

La gamme de poulies CORTECO de qualité origine comprend plus de 190 références pour plus de 3 000 modèles de véhicules. CORTECO offre plus de 20 références de kits comprenant la poulie et les vis. L'ensemble des poulies sont fournies avec les instructions de montage.

Le kit poulie et vis CORTECO, vos avantages :

- Toutes les vis et rondelles nécessaires en un seul kit.
- Gain de temps grâce à une identification rapide des pièces ou du modèle véhicule dans TecDoc via la référence OE.
- Un conditionnement optimisé pour une meilleure protection des pièces lors du transport.
- Une réparation plus fiable.
- Une réparation en conformité avec les recommandations du constructeur.

Semplici e sicuri:

PULEGGIA + KIT BULLONI

Le pulegge dovrebbero essere controllate ogni 90.000 km e sostituite insieme ai bulloni e alle cinghie. Solitamente i bulloni di ricambio sono difficili da identificare e da trovare. Ora CORTECO ve ne offre la più ampia selezione di qualità originale da Freudenberg, il produttore leader mondiale di prodotti e tecnologia per il controllo delle vibrazioni. Appositamente sviluppati, le pulegge e i bulloni originali garantiscono un assemblaggio preciso e il più alto grado di sicurezza.

I bulloni nuovi sono un must!

CORTECO raccomanda di sostituire i bulloni con la puleggia. Il motivo? Nella produzione in serie, vengono utilizzati bulloni con serraggio a snervamento (TTY) in quanto le coppie e i gradi di serraggio sono applicate da dispositivi automatici che portano questi bulloni al loro limite di deformazione elasto-plastica. In questo modo i bulloni subiscono una deformazione ed uno stiramento di tipo permanente. Riutilizzare questi bulloni pone considerevoli rischi per la sicurezza ed è quindi sconsigliato, visto che la deformazione così ottenuta impedisce il ripristino del normale rapporto tra coppia e pre-carico. Risultato: le viti possono allentarsi o perfino rompersi.

La sostituzione è diventata semplice!

CORTECO vi offre un kit completo per la sostituzione, all'interno del quale, in una confezione speciale, trovate la puleggia con i bulloni e le rondelle. Naturalmente la puleggia e i bulloni non entrano in contatto nella scatola, così che le gole della puleggia non si danneggino durante il trasporto. Praticamente in una sola scatola riceverete tutti i ricambi necessari, le istruzioni appropriate per l'installazione e gli strumenti di montaggio in modo che possiate avere tutto il necessario per una corretta sostituzione della puleggia.

CORTECO Service:

Il portfolio di pulegge originali CORTECO comprende più di 190 pulegge per oltre 3.000 applicazioni veicolo. Di queste, 20 sono fornite sotto forma di kit: puleggia + bullone. Tutte le pulegge sono distribuite con le relative istruzioni di montaggio.

Vantaggi della puleggia + kit bulloni CORTECO:

- Puleggia + tutti i bulloni e le rondelle necessarie in unico kit
- Facile identificazione della puleggia o dell'applicazione grazie al n° OE
- Packaging specifico per proteggere i ricambi dai danni derivanti dal trasporto
- Risparmio di tempo grazie ad una facile reperibilità
- Assemblaggio semplice + aumento della sicurezza
- Rispetto delle specifiche OE
